

UI UX LAB ASSIGNMENT 07 :

Name : Abhas A Jaltare

R.no : 28

Panel : F

PRN : 1032221128

Problem statement : (scenario 5)

Digital Library & Research Hub for Students

Problem Statement: Students often struggle to find reliable academic resources, research papers, and e-books in one centralized platform.

Task: Design a digital library and research hub that provides easy access to academic

resources, research papers, and citation tools.

Key Features to Consider:

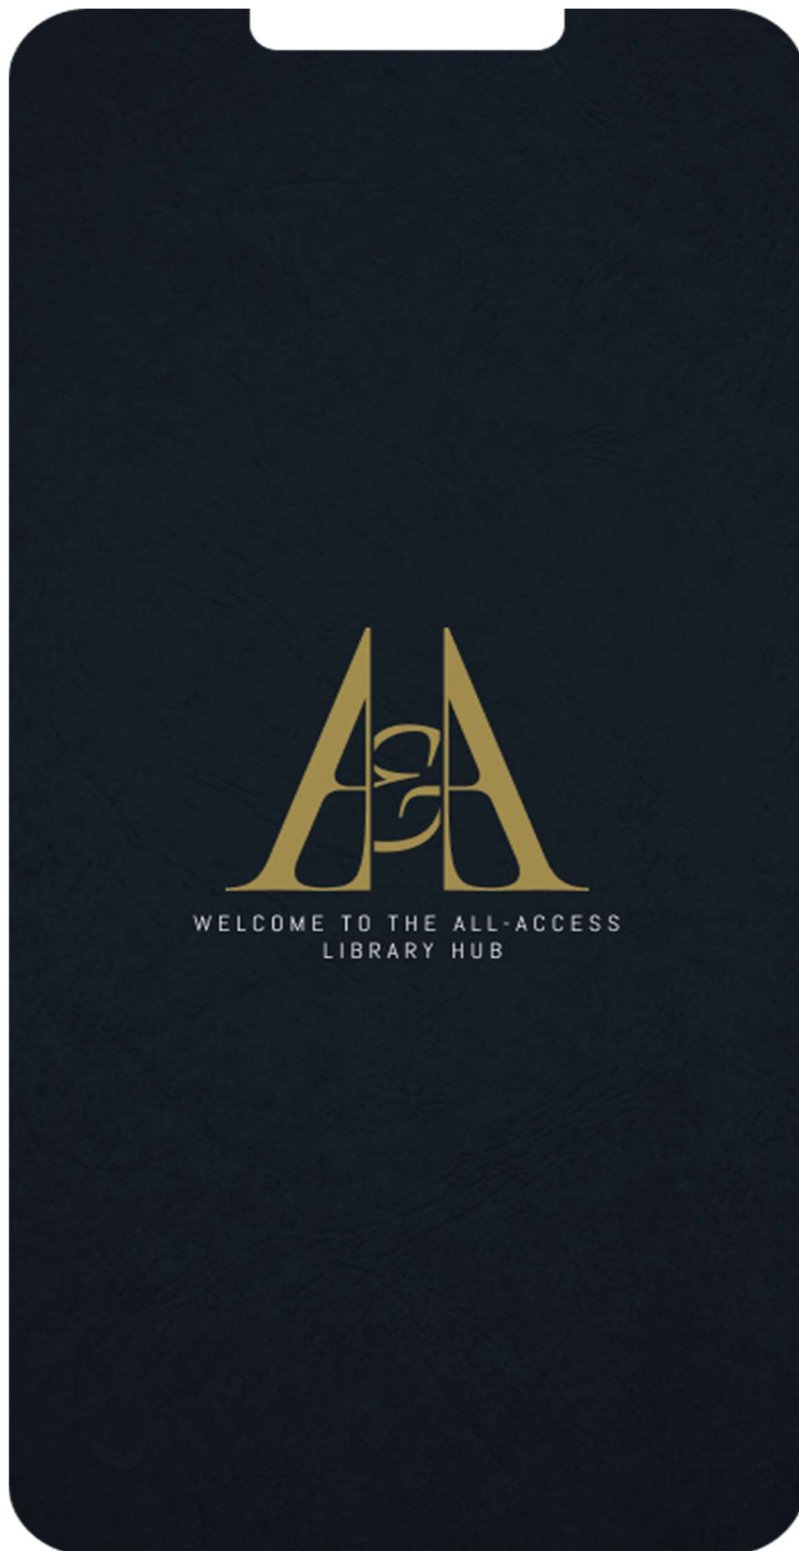

Smart search with filters (topics, authors, year)

Bookmarking & reading list

Citation generator & reference manager

Integration with Google Scholar & university libraries
